\* In cases where the parent is serving in the Armed Forces or where an allowance would normally be payable to a parent or guardian by the Ministry of Pensions no contribution is made by the parent or guardian, as the case may be, but the child's allowance which would normally be payable to the parent or guardian by the Service Department or the Ministry of Pensions is not issued. Payment to the local authority is based on the amount of the allowance withheld.

The payments provided for in the above Estimate consist of (i) the amounts payable out of Votes under the Government of Ireland Act, 1920, for purchase annuities, &c., payable in respect of land situate in Northern Ireland and (ii) continuing payments provided for under Section 11 of the Northern Ireland Land Purchase (Winding Up) Act, 1935, (25 & 26 Geo. 5, c. 21) which are accounted for by the National Debt Office under arrangements made by the Treasury, pursuant to Section 6 of that Act. Other expenses in connection with land purchase in Northern Ireland are borne on the Vote for the Supreme Court of Judicature, &c., Northern Ireland (Class III., 19), and accounted for by the Accountant-General of the Supreme Court of Northern Ireland.

Expenditure under Subhead A is attributable to land purchase in Northern Ireland and is recoverable from the Government of Northern Ireland to the extent of the annuities payable under purchase agreements entered into after the passing of the Government of Ireland Act, 1920 (10 & 11 Geo. 5, c. 67).

Payments from Subheads B and C relate solely to Northern Ireland and are wholly recoverable from the Government of Northern Ireland.

The total amount recoverable from the Government of Northern Ireland in 1946 by deduction from the Northern Ireland share of reserved taxes, is estimated at 544,806/ as follows :—

## APPENDIX

## I.—SALARY SUBHEADS, 1946.

1. With the cessation of the war-time procedure under which salary charges not provided for in the Estimates and certifiable as due to the war could be met by allocation from the Vote of Credit, salary subheads in the 1946 Estimate have, of necessity, been compiled on a basis of full provision for all expenditure expected to be required in the year.

2. Provision is made generally on the basis of the staffs borne on the establishments of the various Departments, or authorized by the Treasury, at the time the Estimates were prepared. In cases where it is known that additional staff will be required during the year for new services, and the cost of such additional staff can be calculated with reasonable precision, appropriate provision has been included, in as much detail as is practicable, and with suitable allowance in certain cases for possible delay in filling all the posts in the approved complements. Conversely, in cases where a progressive reduction in staff is expected, appropriate reductions in the totals of the salary subheads have been effected. No provision has been made for purely conjectural staff additions of indeterminate cost. In such cases any additional provision which may be found necessary will be sought at the appropriate time by means of Supplementary Estimates.

3. Provision is made for the full pay of all officers on the establishments of the various Departments who are serving in the Armed Forces. Departments will, however, only pay such officers the amount by which their civil salary exceeds their military, &c., pay. In cases where the resulting saving to the Vote is likely to be appreciable, after allowing for its gradual elimination with the progress of demobilisation, a suitable global deduction has been made from the total of the salary subhead. Notes to the individual Estimates show the numbers of officers serving with the Forces at the time the Estimates were prepared.

4. The salaries of officers loaned from one Department to another are, with a few exceptions necessitated by technical considerations, borne on the Votes of the Departments in which they are actually serving, and provided for accordingly in the Estimates of these Departments.

5. In general the details shown under salary subheads follow the same lines as in the past few years. In most cases the provision for clerical, typing and similar staff and for messengers, cleaners and other minor grades has again been made by means of comprehensive items. The salary scales or rates of pay of the principal grades included in these composite items are set out in Part II of this Appendix.

## II.—REMUNERATION.

*Salary Scales.*—The annual or weekly scales of pay of established officers shown in the Estimates indicate the minima and maxima, and, in most cases, the rates of annual or weekly increment as the case may be. In certain cases, however, where the incremental rates are subject to a number of variations at different points of the scale, these are omitted in order to save space.

*Scales of pay of certain grades not shown in the Estimates.*—The following table shows the annual or weekly scales of basic pay of the principal grades, common to most Departments, for which provision is made under the composite items referred to in Part I above, annual salaries being expressed in pounds and weekly wages in shillings:—

*Consolidation of War Bonus.*—The basic scales and rates of pay shown in the Estimates are, in the case of whole-time non-industrial Civil Servants with salaries up to 1,500l. a year, for the time being, subject to certain additions in respect of consolidation of war bonus, which was previously paid as a separate emolument. The amount of the Consolidation Addition is shown in the following table:—

## APPENDIX.

## SCHEDULE OF OTHER GRANTS AND PAYMENTS FOR VARIOUS SPECIAL PURPOSES MADE BY GOVERNMENT DEPARTMENTS TO UNIVERSITY INSTITUTIONS RECEIVING GRANTS FROM THE UNIVERSITY GRANTS COMMITTEE OR TO INDIVIDUAL TEACHERS OR INVESTIGATORS WORKING IN THEM.

*Note.*—The grants made on the recommendation of the University Grants Committee and set out above are block grants in aid of the general incomes of the University Institutions concerned, for their maintenance as centres of advanced education and research in the faculties of Arts, Pure Science, Medicine and Technology.

The work aided by these block grants from the Treasury does not, however, by any means exhaust the whole range of public services which the University Institutions perform, and extensive use of these institutions and their staffs is made by other Government Departments and Agencies in furtherance of the various special objects with which they are concerned. This schedule, in which the figures represent the amounts estimated to be payable in 1945 and 1946, summarises the variety of separate grants for such specific purposes which are made from other Votes to University Institutions or to teachers or investigators working in them, by the Ministry of Agriculture and Fisheries, the Forestry Commissioners, the Development Commissioners, the Agricultural Research Council, the Department of Scientific and Industrial Research, the Medical Research Council, the Ministry of Education, and the Scottish Education Department. Column (d) ("Miscellaneous") covers such items as the grant to Cambridge for the Solar Physics Observatory, originally a Government establishment at South Kensington, the small compensatory grants to Oxford and Cambridge for the loss of their old privilege of "printing and vending almanacs," and certain payments made by the Department of Scientific and Industrial Research for services rendered in conducting particular researches on behalf of that department.

Grant in aid of the British Broadcasting Corporation under the Agreement of 14 February 1940 set out in Cmd. 6177 of 1940.

Under Section 2 of the Agreement referred to above, the Minister of Information is required, as from 1 April 1940, to pay to the Corporation such annual sum as the Treasury, on representations by the Corporation to the Minister, shall approve as sufficient for the adequate conduct of the services provided by the Corporation. The transfer of the Minister of Information's functions in this respect to the Postmaster General will be effected by a supplementary Agreement with the Corporation.

In view of the expiry on 31 December 1946 of the Corporation's present Charter, the Estimate makes provision for the period of nine months ending 31 December 1946 only. The amount of the proposed provision is in accordance with estimates of the Corporation's net expenditure during this period. If the Charter is renewed a Supplementary Estimate in respect of the period of three months from 1 January to 31 March 1947 will be presented in due course.

\* The accounts of the British Broadcasting Corporation will not be audited by the Comptroller and Auditor General. Any balance of the sum issued which may remain unexpended at 31 March 1947 will not be liable to surrender to the Exchequer.

† Of this expenditure £75,000 is estimated to be attributable to Northern Ireland and is recoverable by deduction from the Northern Ireland share of reserved taxes.

## APPENDIX

## I.—SALARY SUBHEADS, 1946.

1. With the cessation of the war-time procedure under which salary charges not provided for in the Estimates and certifiable as due to the war could be met by allocations from the Vote of Credit, salary subheads in the 1946 Estimate have, of necessity, been compiled on a basis of full provision for all expenditure expected to be required in the year.

2. Provision is made generally on the basis of the staffs borne on the establishments of the various Departments, or authorized by the Treasury, at the time the Estimates were prepared. In cases where it is known that additional staff will be required during the year for new services, and the cost of such additional staff can be calculated with reasonable precision, appropriate provision has been included, in as much detail as is practicable, and with suitable allowance in certain cases for possible delay in filling all the posts in the approved complements. Conversely, in cases where a progressive reduction in staff is expected, appropriate reductions in the totals of the salary subheads have been effected. No provision has been made for purely conjectural staff additions of indeterminate cost. In such cases any additional provision which may be found necessary will be sought at the appropriate time by means of Supplementary Estimates.

3. Provision is made for the full pay of all officers on the establishments of the various Departments who are serving in the Armed Forces. Departments will, however, only pay such officers the amount by which their civil salary exceeds their military, &c., pay. In cases where the resulting saving to the Vote is likely to be appreciable, after allowing for its gradual elimination with the progress of demobilisation, a suitable global deduction has been made from the total of the salary subhead. Notes to the individual Estimates show the numbers of officers serving with the Forces at the time the Estimates were prepared.

4. The salaries of officers loaned from one Department to another are, with a few exceptions necessitated by technical considerations, borne on the Votes of the Departments in which they are actually serving, and provided for accordingly in the Estimates of these Departments.

5. In general the details shown under salary subheads follow the same lines as in the past few years. In most cases the provision for clerical, typing and similar staff and for messengers, cleaners and other minor grades has again been made by means of comprehensive items. The salary scales or rates of pay of the principal grades included in these composite items are set out in Part II of this Appendix.

## II.—REMUNERATION.

*Salary Scales.*—The annual or weekly scales of pay of established officers shown in the Estimates indicate the minima and maxima, and, in most cases, the rates of annual or weekly increment as the case may be. In certain cases, however, where the incremental rates are subject to a number of variations at different points of the scale, these are omitted in order to save space.

*Scales of pay of certain grades not shown in the Estimates.*—The following table shows the annual or weekly scales of basic pay of the principal grades, common to most Departments, for which provision is made under the composite items referred to in Part I above, annual salaries being expressed in pounds and weekly wages in shillings :—

The above scales apply in London. Lower rates are paid elsewhere.

*Consolidation of War Bonus.*—The basic scales and rates of pay shown in the Estimates are, in the case of whole-time non-industrial Civil Servants with salaries up to 1,500l. a year, for the time being, subject to certain additions in respect of consolidation of war bonus, which was previously paid as a separate emolument. The amount of the Consolidation Addition is shown in the following table:—

## NOTES.

1. Contributions payable to local authorities under the proviso to Section 3 (1) of the Housing (Temporary Accommodation) Act, 1944, and payments by local authorities to the Minister under Section 3 (1) of that Act are accounted for under Subheads E.1 and Z respectively. The contributions will be paid with, and the payments to the Minister will be recovered from, the periodical issues to local authorities in respect of grants provided under Subhead F.1. Both contributions and payments will accrue from the dates of completion of the structures as certified by the Minister of Works and will be determined by reference to the approved cost of the developed sites.

2. The grants provided under Subheads G.1–5, 7–10 and R.1, 2, 4 & 5, will be subject to conditions approved by the Treasury.

3. Local authorities and other bodies are required in general to submit statements duly audited of claims, or of accounts in support of claims, for any of the grants provided for in the estimate. Issues in respect of these grants will be made from time to time by way of advance pending the audit of the claims or of the accounts, on the basis of a percentage of the estimated grant, any necessary adjustments being made when the claims or accounts have been audited.

4. Expenditure out of the grants in aid provided under Subheads G.9 and 13 will not be accounted for in detail to the Comptroller and Auditor General, and any balances of the sums issued which may remain unexpended at 31 March 1947 will not be liable to surrender to the Exchequer.

Provision is required to meet :—

- (i) payments in the year 1946 under grants made prior to 31 August 1929 on the recommendation of the Unemployment Grants Committee. The nature and terms of these grants have been set out in detail in the Estimates presented to Parliament for 1929 and previous years ;
- (ii) payments in the year 1946 under grants made subsequent to 30 August 1929 in pursuance of Part II of the Development (Loan Guarantees and Grants) Act, 1929 (20 & 21 Geo. 5, c. 7), on the recommendation of the Committee appointed under Section 4 of that Act. Grants could be made under the Act to local authorities and statutory bodies carrying on undertakings under statutory powers, otherwise than for profit, towards any expenditure to be incurred for the purpose of carrying out works of public utility calculated to promote employment in the United Kingdom. The terms and conditions of the grants were subject to the approval of the Treasury, but payments on account of grants towards loan charges might not extend beyond thirty years from the raising of the loan. The authority to make grants expired on 30 August 1932, but grants made before that date may be adjusted, with the consent of the Treasury, in the event of exceptional and unforeseen circumstances arising before the schemes are completed.

The claims for these grants will be subject, in the case of local authorities in England and Wales, to examination by the District Auditors and, in the case of local authorities in Scotland, to examination by the Auditors appointed to audit the accounts of the local authorities. In the case of other bodies the claims will be subject to such audit of accounts and the production of such other evidence as the circumstances of individual cases may require.

Issues in respect of the grants will be made from time to time in advance of the audit of accounts as expenditure on the works proceeds, subject to adjustment on final audit either by repayment or by deduction from amounts due under subsequent grants.

The administrative expenses in connection with this Estimate are borne on the Vote for the Ministry of Labour and National Service, Class V., 4.

DECREASE £10,500,000

Under Section 14 of the Widows', Orphans' and Old Age Contributory Pensions Act, 1936 (26 Geo. 5 & 1 Edw. 8, c. 33) the contributions under that Act of employers and insured persons in England and Wales are carried to an account called the Pensions Account and in Scotland to a similar account called the Pensions (Scotland) Account, out of which accounts are met the pensions payable under the Act and the expenses incurred in its administration. When the sum standing to the credit of either of these Accounts is more than is required to meet expenditure the surplus is paid over to a central account called the Treasury Pensions Account, and, conversely, when the balance on either account is insufficient to meet expenditure, the necessary sum is issued from the Treasury Pensions Account.

Under Subsection (3) of the above Section annual sums are payable out of moneys provided by Parliament into the Treasury Pensions Account. Under paragraph (b) of that Subsection the annual sum payable in each of the three years ended 31 March 1944 to 1946 inclusive was 21,000,000*l.* Under paragraph (c) the sums subsequently payable shall be such as Parliament may determine. Comprehensive new legislation on national insurance (including pensions) has recently been introduced, and in the meantime the authority of Parliament is sought by means of this Estimate for payment to the Treasury Pensions Account of a contribution for the first six months of 1946 at the same annual rate as the contribution for the immediately preceding years.

Under Section 6 of the Widows', Orphans' and Old Age Contributory Pensions (Voluntary Contributors) Act, 1937 (1 Edw. 8 & 1 Geo. 6, c. 39) similar accounting arrangements are prescribed in respect of the special voluntary contributors under that Act, the corresponding accounts being called the Special Pensions Account, the Special Pensions (Scotland) Account and the Treasury Special Pensions Account.

Paragraph (b) of Subsection (3) of the above Section provides for the payment out of moneys provided by Parliament to the Treasury Special Pensions Account in each of the years ending 31 March 1943 to 1949 inclusive of a sum actuarially related to the loss to that Account arising through the special terms of admission to insurance given to initial entrants under the Act. Under the powers given by Section 8 of the National Health Insurance Contributory Pensions and Workmen's Compensation Act, 1941 (4 & 5 Geo. 6, c. 39) and for the reasons described in the Report by the Government Actuary on the Financial Provisions of Part I of that Act (Cmd. 6290) it was decided to defer the re-assessment of this grant and in the meantime to continue unaltered the grant as fixed under paragraph (a) of the same Subsection for each of the three years ending 31 March 1940 to 1942. Effect was given to this decision in the Contributory Pensions (Emergency Provisions) Regulations, 1942 (S.R. & O., 1942, No. 624.)

The accounts of all the statutory Accounts referred to above are audited by the Comptroller and Auditor General and laid before Parliament annually.

## NOTE.

It is estimated that the expenses of administration in the year ending 31 March 1947 will be as follows:—

† Provision for 1946 is made on the basis that payments of supplementary pensions during the second half of the financial year will be greatly reduced in consequence of the increased basic rates of Old Age Pensions for persons who have retired from regular employment which it is proposed to introduce under the powers sought in the National Insurance Bill now before Parliament.

## NOTES ON GRANTS.

(i) The advances provided under Subhead F.1 (ii) will be made in accordance with conditions approved by the Treasury and the accounts of the Housing Company will be audited by an Auditor appointed by the Department. Issues may be made from time to time in advance of the audit of the accounts on the basis of the sums estimated to be due to be advanced under the conditions approved by the Treasury, and any unexpended balances of amounts so issued will not be liable to surrender at the close of the financial year, any necessary adjustments being made in connection with subsequent advances.

(ii) The grants provided under Subheads G.3, H.1, 2, 3, 5 and J.1 will be subject to conditions approved by the Treasury.

(iii) Local authorities are required in general to submit statements duly audited of claims or of accounts in support of claims for any of the grants provided under Subheads F.1 (i), 5, 7 and 8, G.2, H.1-3, 5-8, 10 and 11, J.1 and 2, and certain grants, &c., included under Subhead K. In the case of other bodies concerned in the grants under F.1(i), 5 and 7, G.2, H.5 and 6, claims will be subject to such audit and the production of such evidence as the circumstances of the individual cases may require. Issues in respect of these grants will be made from time to time in advance of the audit of the claims or of the accounts, on the basis of a percentage of the estimated grant, any necessary adjustments being made when the claims or accounts have been audited.

(iv) The grant in aid under Subhead H.4 will be paid to a separate Fund, called the Highlands and Islands (Medical Service) Fund. Subject to regulations made by the Treasury with respect to accounts, audit and accumulation, the Fund will be administered by the Department in accordance with schemes made by the Department with the consent of the Treasury. Expenditure out of the Fund will be accounted for in detail to the Comptroller and Auditor General. Any balance of the sum issued which may remain unexpended at 31 March 1947 will not be liable to surrender to the Exchequer.

(v) Subhead H.11—Children's Nurseries, &c. Under Section 52 and the Fifth Schedule of the Local Government (Scotland) Act, 1929, grants for child welfare (inter alia) were discontinued, Exchequer aid for maternity and child welfare being included in the General Exchequer Contribution. During the war period the facilities for nursery schools, classes, &c. were expanded in the interests of war production and the whole of the authorities' net expenditure was reimbursed from the Exchequer. It is now proposed to continue direct Exchequer assistance on a reduced scale during the transition period, both for production needs and as part of the maternity and child welfare service. It is intended that this special grant shall remain in operation until the future of maternity and child welfare services generally is settled by legislation establishing a National Health Service, and in the meantime authority is sought by means of this Estimate for the grants shown under this Subhead.

## APPENDIX

## I.—SALARY SUBHEADS, 1946.

1. With the cessation of the war-time procedure under which salary charges not provided for in the Estimates and certifiable as due to the war could be met by allocations from the Vote of Credit, salary subheads in the 1946 Estimates have, of necessity, been compiled on a basis of full provision for all expenditure expected to be required in the year.

2. Provision is made generally on the basis of the staffs borne on the establishments of the various Departments, or authorized by the Treasury, at the time the Estimates were prepared. In cases where it is known that additional staff will be required during the year for new services, and the cost of such additional staff can be calculated with reasonable precision, appropriate provision has been included, in as much detail as is practicable, and with suitable allowance in certain cases for possible delay in filling all the posts in the approved complements. Conversely, in cases where a progressive reduction in staff is expected, appropriate reductions in the totals of the salary subheads have been effected. No provision has been made for purely conjectural staff additions of indeterminate cost. In such cases any additional provision which may be found necessary will be sought at the appropriate time by means of Supplementary Estimates.

3. Provision is made for the full pay of all officers on the establishments of the various Departments who are serving in the Armed Forces. Departments will, however, only pay such officers the amount by which their civil salary exceeds their military, &c., pay. In cases where the resulting saving to the Vote is likely to be appreciable, after allowing for its gradual elimination with the progress of demobilisation, a suitable global deduction has been made from the total of the salary subhead. Notes to the individual Estimates show the numbers of officers serving with the Forces at the time the Estimates were prepared.

4. The salaries of officers loaned from one Department to another are, with a few exceptions necessitated by technical considerations, borne on the Votes of the Departments in which they are actually serving, and provided for accordingly in the Estimates of these Departments.

5. In general the details shown under salary subheads follow the same lines as in the past few years. In most cases the provision for clerical, typing and similar staff and for messengers, cleaners and other minor grades has again been made by means of comprehensive items. The salary scales or rates of pay of the principal grades included in these composite items are set out in Part II of this Appendix.

## II.—REMUNERATION.

*Salary Scales.*—The annual or weekly scales of pay of established officers shown in the Estimates indicate the minima and maxima, and, in most cases, the rates of annual or weekly increment as the case may be. In certain cases, however, where the incremental rates are subject to a number of variations at different points of the scale, these are omitted in order to save space.

*Scales of pay of certain grades not shown in the Estimates.*—The following table shows the annual or weekly scales of basic pay of the principal grades, common to most Departments, for which provision is made under the composite items referred to in Part I above, annual salaries being expressed in pounds and weekly wages in shillings :—

The above scales apply in London. Lower rates are paid elsewhere.

*Consolidation of War Bonus.*—The basic scales and rates of pay shown in the Estimates are, in the case of whole-time non-industrial Civil Servants with salaries up to 1,500l. a year, for the time being, subject to certain additions in respect of consolidation of war bonus, which was previously paid as a separate emolument. The amount of the Consolidation Addition is shown in the following table :—

New scales and ranges of salary on a consolidated basis are in course of promulgation.

*Service Awards.*—Arrangements for the remuneration of certain temporary staff, locally recruited overseas, allow for awards on completion of service, varying in amount with the period served.

(a) Slightly lower rates are payable where the officer is not fully qualified.

(b) In addition, allowances of 5s. and 3s. a week are payable to some members of these grades who have attained prescribed standards of proficiency in typing and shorthand respectively.

(c) Women cleaners conditioned to a 30-hour week subject to a liability to attend for 42 hours without extra payment receive a Consolidation Addition of 18s. per week.

## NOTES.

(a) In the case of grants to Departments (Part I) the estimated expenditure is shown gross on the appropriate subheads of the Department concerned, with corresponding appropriations in aid from the Development Fund (*see* Estimates for Ministry of Agriculture, Class VI., 8, Department of Agriculture for Scotland, Class VI., 21, and Fisheries, Scotland, Class VI., 23.)

(b) In the case of grants through Departments (Part II) the expenditure is not shown in the Estimates of the Departments concerned.

Advances for harbour reconstruction and reconditioning are made both by way of loan and grant but, as it is impossible to forecast what the allocation between loan and grant will be, they are shown in the Appendix as grants only. In other cases advances are normally by way of grant.

(c) The administrative expenses of the Development Commission may be divided roughly as follows:—Salaries and pensions, 7,450*l.*; travelling and subsistence, 150*l.*; office charges and incidental expenses, 2,400*l.*; total, 10,000*l.*\*

\* Net charge after deducting contribution of 10,950*l.* from the Agricultural Research Council.
